Why choose LED?

toll free 800.321.8105 • www.pepsipop.com (password: impactpop) • fax 775.882.5210

- 81% power savings over magnetic ballast lighting.
- 76% power savings over electronic ballast lighting.
- LED panels last between 75,000 – 100,000 hours
- LED panels only lose 3% brightness on average over life of panel – other lamps lose up to 51% brightness in just two years!
- Generate little to no heat, extending the life of translites/images.
- Environmentally friendly as they contain no mercury or toxic waste.
- Up-scale look at a fraction of the cost of LCD digital displays.
